## Data in Many Forms ...

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

## How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Information and Classification Services Section,  
Industry Division,

Statistics Canada, Ottawa, K1A 0T6 (Telephone: 990-9497)  
or to the Statistics Canada reference centre in:

St. John's	(772-4073)	Sturgeon Falls	(753-4888)
Halifax	(426-5331)	Winnipeg	(949-4020)
Montréal	(283-5725)	Regina	(780-5405)
Ottawa	(990-8116)	Edmonton	(420-3027)
Toronto	(973-6586)	Vancouver	(666-3691)

Toll-free access is provided in all provinces and territories, **for users who reside outside the local dialing area** of any of the regional reference centres.

Newfoundland and Labrador	1-800-563-4255

## Des données sous plusieurs formes ...

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordiolinguée et le système d'extraction de Statistique Canada.

## Comment obtenir d'autres renseignements

Toutes demandes de renseignements au sujet de cette publication ou de statistiques et services connexes doivent être adressées à:

Section des services d'information et de classification,  
Division de l'industrie,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 990-9497) ou au centre de consultation de Statistique Canada à:

St. John's	(772-4073)	Sturgeon Falls	(753-4888)
Halifax	(426-5331)	Winnipeg	(949-4020)

# Introduction

## General

The main tables of this report present the principal statistics compiled at one or more of three levels of aggregation (all industry, major industry group or industry) for economic regions, Census Divisions (CD's), Census Metropolitan Areas (CMA's) selected Census Agglomerations (CA's) and specified municipalities. The specified municipalities listed at the all-industry level are those with shipments of goods of own manufacture of \$3,000,000 or more in 1984 which were publishable in accordance with the provisions of the Statistics Act.

Appendix I presents in tabular format, the number of establishments by employment size range for about one half of the municipalities in Canada which contain manufacturing establishments. This table provides what is in effect a profile of the size of manufacturing establishments in any municipality which has three or more establishments.

Effective with 1977, the term "Census Division" replaced "county" wherever applicable. This complies with the use of a standard terminology within Statistics Canada.

Table 2 in this publication, contains data for two-digit major industry groups by CD and manufacturing statistical areas. The term "statistical areas" refers in effect to "manufacturing statistical areas" made up of part or all of one or more CD's (for further details see item (a) "Census Divisions" under "Spatial Concepts and Definitions" in this Introduction, and also Appendix II).

Principal statistics on the manufacturing industries aggregated at the provincial and Canada levels are published in *Manufacturing Industries of Canada: National and Provincial Areas*, Catalogue 31-203.

## Methodology and Data Collection

The basic data for this report have, since the 1983 issue, been compiled according to the 1980 revision of the "Standard Industrial Classification" (S.I.C.).<sup>1</sup> A list of the industries included in the census, together with their SIC codes, is published as Appendix III. Readers wishing information on the effect of implementing the 1980 revision of the Standard Industrial Classification are

<sup>1</sup> Statistics Canada: *Standard Industrial Classification Revised, 1980*. (Catalogue 12-501E.)

# Introduction

## Généralités

Les principaux tableaux de cette publication présentent les statistiques de base selon un ou plusieurs des trois niveaux d'agrégation (ensemble des industries, groupe d'industries, industrie) pour les régions économiques, les divisions de recensement (DR), les régions métropolitaines de recensement (RMR), certaines agglomérations de recensement (AR) et certaines municipalités. Sont énumérées au niveau de l'ensemble des industries les municipalités où les livraisons de produits de propre fabrication s'élèvent à \$3,000,000 ou plus en 1984 et dont les données peuvent être publiées conformément à la Loi sur la statistique.

L'appendice I présente, sous forme de tableau, le nombre d'établissements selon la taille de l'effectif pour environ la moitié des municipalités du Canada où se trouvent des établissements manufacturiers. Ce tableau fournit ce qui constitue effectivement un profil de la taille des établissements manufacturiers dans toute municipalité comprenant trois établissements ou plus.

Depuis 1977, on utilise l'expression "division de recensement" au lieu de "comté" par souci d'uniformité au sein de Statistique Canada.

Le tableau 2 dans la présente publication comprend des données sur les grands groupes d'industries à deux chiffres, par DR et par régions statistiques manufacturières. L'expression "région statistique" s'applique aux "régions statistiques manufacturières", composées d'une partie ou de la totalité d'un ou de plusieurs DR. (Pour de plus amples renseignements voir la rubrique a) "Divisions de recensement" de la partie "Concepts et définitions d'ordre géographique" dans l'introduction, et aussi l'appendice II).

Les statistiques principales sur les industries manufacturières regroupées aux niveaux des provinces et du Canada figurent dans la publication intitulée *Industries manufacturières du Canada: Canada et provinces*, no 31-203 au catalogue.

## Méthodologie et collecte des données

Les données de base du présent bulletin ont, depuis le numéro de 1983, été compilées d'après la version révisée de 1980 de la "Classification des activités économiques" (CAÉ) (maintenant connue comme la "Classification type des industries" ou CTI)<sup>1</sup>. L'appendice III renferme la liste des industries recensées ainsi que leurs codes de la CTI. Pour plus de renseignements sur les répercussions qu'a causées l'application de la nouvelle Classifi-

<sup>1</sup> Statistique Canada: *Classification types des industries révisée, 1980*, (n° 12-501F au catalogue.)

referred to the special notes in the Introduction to the 1983 issue of the publication "Manufacturing Industries of Canada: National and Provincial Areas", Catalogue 31-203.

Data are collected by means of three main types of questionnaires mailed to establishments classified to the manufacturing industries: the "long form" sent to large establishments, requesting detailed information on principal statistics and on commodity inputs and outputs; the "short form" sent to small establishments, asking for minimum principal statistics and minimal commodity detail; and the "head office" sent to head offices and ancillary units. Copies of the "General Questionnaire" long form (without detailed manufacturing commodity inputs and outputs which are specific to each industry), of the short form and of the head office questionnaire are reproduced as Appendices A, B, and D of the 1984 issue of Catalogue 31-203.

The criteria for differentiating "large" and "small" establishments varies by industry and province (and through time) but, in general, are governed by the objective of minimizing respondent burden without the loss of a significant amount of commodity data. While small establishments accounted for 56.4% of the total number of establishments in 1984, their manufactured shipments were only 3.6%, of the totals for all manufacturing.

Data published herein are based on the Census of Manufactures survey which covers all establishments classified to the manufacturing sector according to the SIC.

## Concepts and Definitions

An abbreviated version of the major concepts and definitions used in the Census of Manufactures is printed as "Explanatory Notes" on the inside back cover of this publication.

Detailed information may be obtained by ordering *Concepts and Definitions of the Census of Manufactures*, Catalogue 31-528, (price: Canada \$1.40, other countries, \$1.70) by writing to *Publications Sales, Statistics Canada, Ottawa, Ontario, K1A 0T6*.

## Effects of "Short Forms" on Interregional and Historical Comparisons

One of the more significant changes over the years was the introduction in 1970 of a considerably simplified "short form" for small establishments, which is briefly described under "small establishments" in the "Explanatory Notes". Changes introduced at that time affect virtually all items of principal statistics for small establishments and are most noticeable in industries, provinces or other groupings of data where small establishments

cation type des industries, le lecteur est prié de consulter les notes spéciales dans l'introduction de l'édition de 1983 de la publication intitulée "Industries manufacturières du Canada: niveaux national et provincial", n° 31-203 au catalogue.

La collecte des données se fait au moyen de trois types de questionnaire qui sont envoyés par la poste aux établissements classés parmi les industries manufacturières: le "questionnaire complet" envoyé aux grands établissements afin de recueillir des renseignements détaillés sur les statistiques principales et les entrées et sorties de marchandises; le "questionnaire abrégé" envoyé aux petits établissements dans le but d'obtenir quelques statistiques principales et quelques détails sur les marchandises; et le "questionnaire du siège social" envoyé aux sièges sociaux et aux unités auxiliaires. On trouvera respectivement aux annexes A, B et D de l'édition de 1984 de la publication n° 31-203 au catalogue, une exemplaire du questionnaire complet (sans les détails relatifs aux entrées et sorties de marchandises, qui sont particuliers à chaque industrie), du questionnaire abrégé et du questionnaire du siège social.

Les critères servant à distinguer les grands des petits établissements varient selon l'industrie et la province (et aussi dans le temps); toutefois, ils ont pour tâche commune de réduire le plus possible le fardeau des répondants sans pour autant perdre un volume important de données sur les marchandises. Bien que les petits établissements représentaient 56.4% du nombre total d'établissements en 1984, leur livraisons manufacturières n'ont atteint que 3.6%, de ceux de toute l'activité manufacturière.

Les données publiées ici sont tirées du recensement des manufactures qui englobe tous les établissements classés dans le secteur manufacturier d'après la CAÉ.

## Concepts et définitions

Une version abrégée des principaux concepts et définitions utilisés dans le cadre du recensement des manufactures figure dans les "Notes explicatives" à l'intérieur de la couverture arrière de la publication.

On peut obtenir des renseignements détaillés en commandant la publication no 31-528 au catalogue, intitulée *Concepts et définitions du recensement des manufactures* (prix: Canada, \$1.40, Autres pays, \$1.70) à l'adresse suivante: Section des Ventes des publications, Statistique Canada, Ottawa, Ontario K1A 0T6.

## Répercussions des questionnaires abrégés sur les comparaisons interrégionales et chronologiques

L'une des modifications les plus importantes apportées au cours des années a été l'introduction en 1970 d'un questionnaire abrégé fort simplifié pour les petits établissements. Le questionnaire est décrit brièvement sous la rubrique "petits établissements" dans les "Notes explicatives". La refonte du questionnaire influe sur presque toutes les rubriques des principales statistiques pour les petits établissements; cette influence est plus évidente dans les industries, provinces ou autres groupe-

account for a significant proportion of principal statistics.

A rather detailed discussion of some of the changes to the "short form" in 1970 are contained in "Census of Manufactures, Technical Paper No. 1, Revision of the Short Form and Change in Fiscal Years Accepted Beginning with the 1970 Census of Manufactures", available from the same address noted under "Concepts and Definitions".

The following are some consequences of the revised "short form" for the interpretation of data in this publication or comparison with similar data for years before 1970.

#### (a) **Change in Fuel Reporting Procedures**

During the 12-year period from 1970 to 1981, the cost of fuel was not collected separately for small firms. But in 1982, fuel and electricity costs were again compiled separately for small firms, instead of being included in "cost of materials and supplies". Therefore starting with the year 1982 the fuel and electricity figures shown in this and other publications reflect **all** establishments and not just the large ones, as was the case in prior years. For the year 1984 these small firms accounted for only 2.3% of total fuel and electricity costs.

#### (b) **Imputation of Person-Hours and Employees for Small Establishments**

As indicated in the "Explanatory Notes", beginning with 1970 data, the number of employees in small establishments have been imputed from reported salaries and wages; this also applies to person-hours paid. The following is a brief explanation of the method of imputation for person-hours and employees in small establishments:

- (1) The number of person-hours paid is calculated by dividing the wages and salaries reported by the estimated average hourly earnings for the relevant industry and province.
- (2) The number of person-hours worked is calculated using the appropriate ratio of person-hours worked to person-hours paid.
- (3) The number of employees is calculated using the appropriate average person-hours paid per year. (If the total person-hours paid for an establishment is the equivalent of less than 0.5 employees per year, then no employees are imputed but the person-hours figures are retained for the industry.)
- (4) Total employees are distributed into male and female using relevant ratios. All employees are considered to be production workers engaged in manufacturing activity except in the case of SIC 2831 and 2839, (publishing), where they are con-

ments de données où les petits établissements interviennent de façon marquée dans les principales statistiques.

Un exposé détaillé de certaines des modifications apportées au questionnaire abrégé en 1970 figure dans le document intitulé "Recensement des manufactures, document technique no 1, révision de la formule abrégée et modification des années financières acceptées à partir du recensement des manufactures de 1970", on peut s'en procurer un exemplaire à l'adresse mentionnée à la rubrique "Concepts et définitions".

Voici certaines des conséquences de cette révision sur l'interprétation des données présentées ici ou la comparaison avec des données semblables pour les années antérieures à 1970.

#### a) **Changement dans la procédure de déclaration au sujet du combustible**

Pendant la période de 1970 à 1981, le coût du combustible n'était pas recueilli séparément auprès des petits établissements. Mais en 1982, les coûts du combustible et de l'électricité ont été à nouveau calculés séparément pour les petites entreprises et ne sont plus compris dans "coût des matières et fournitures". C'est donc dire qu'à compter de 1982, les chiffres sur le combustible et l'électricité dans cette publication-ci et dans d'autres représentent **tous** les établissements et non pas seulement les grands établissements, comme c'était le cas auparavant. Pour l'année 1984, ces petits établissements n'ont consommé que 2.3% du total des dépenses pour le combustible et l'électricité.

#### b) **Imputation des heures-personnes et des effectifs des petits établissements**

Comme il est mentionné dans les "Notes explicatives" à partir de 1970, les effectifs des petits établissements sont imputés à partir des traitements et salaires déclarés; cette règle s'applique également aux heures-personnes rémunérées. Voici une brève explication de la méthode utilisée pour imputer les heures-personnes et les effectifs des petits établissements:

- (1) Le nombre d'heures-personnes est établi en divisant les traitements et salaires déclarés par les gains horaires moyens estimés dans l'industrie ou la province en question.
- (2) Le nombre d'heures-personnes travaillées est calculé à l'aide du rapport entre les heures-personnes travaillées et les heures-personnes rémunérées.
- (3) Le nombre de salariés est établi à partir de la moyenne annuelle des heures-personnes rémunérées. (Si le total des heures-personnes rémunérées d'un établissement équivaut à moins de 0.5 salarié par année, aucune imputation n'est faite, mais on conservera ce chiffre au niveau de l'industrie.)
- (4) Le nombre total de salariés est réparti selon le sexe à l'aide des rapports appropriés. Tous les salariés sont considérés comme étant des travailleurs de la production participant à l'activité manufacturière, à l'exception de ceux des classes 2831 et 2839 de la CTI (édition), qui sont

sidered to be administrative, office and other non-manufacturing employees.

Although small establishments accounted for 56.4% of the total number of establishments in 1984, their wages and salaries were only 5.3%, and their manufactured shipments only 3.6%, of the totals for all manufacturing. The number of employees for these establishments, based on the imputation procedures described above, was 150,285 or 8.7% of all employees accounted for in the 1984 Census of Manufactures.

#### (c) Variation in Definition of Value Added

Users comparing data for geographical areas should consider whether varying proportions of data accounted for by small establishments filing the abbreviated "short form" may bias such comparisons, particularly in the case of data involving value added. This will not be a problem for national aggregates nor, for the most part, for provincial totals for industries. The proportion of output accounted for by "short forms" is designedly a small percentage of national totals for all but a few industries and this is usually the case for provincial totals also; however, for sub-provincial areas very small establishments can account for a large part of particular industry totals.

Value added is calculated by subtracting purchased inputs from gross output. In the case of establishments filing the "long form", the deductions from gross output are the cost of materials and supplies used and the cost of fuel and electricity. In the case of "short form" establishments, however, the relevant input items collected give a combined total for the cost of materials, supplies, fuel and services. Thus value added for "short forms" **excludes** the cost of services, while for "long form" establishments the value added is inflated by the inclusion of the cost of services. The difference is often not trivial for the individual establishment and whether or not a problem is involved for aggregates will depend on the relative proportions of value accounted for by "short forms".

#### (d) Changes in "Cost of Materials, Supplies and Goods for Resale"

Effective with the year 1976, the "Cost of materials, supplies and goods for resale" shown under Total Activity reflects a slight change in methods. Previously this statistic included **purchases** of goods for resale in the same condition as purchased; now **cost of goods sold** with respect to such activity is included instead, thus removing the effect of changes in inventories of such goods on the cost of materials reported. ("value added, total activity", was always calculated so as to exclude distortions from fluctuations in these inventories.)

des employés administratifs, de bureau et autres non préposés à la fabrication.

Bien que les petits établissements représentaient 56.4% du nombre total d'établissements en 1984, leurs traitements et salaires n'ont atteint que 5.3%, et leurs livraisons manufacturières 3.6%, de ceux de toute l'activité manufacturière. L'effectif de ces établissements, calculé à partir des méthodes d'imputation présentées ci-dessus, s'est chiffré à 150,285 ou 8.7% de tous les salariés déclarés au recensement des manufactures pour 1984.

#### c) Variation dans la définition de la valeur ajoutée

Les utilisateurs qui comparent les données se rapportant à des secteurs géographiques devraient voir si la variation des proportions que représentent dans les résultats les petits établissements qui remplissent les questionnaires abrégés peut introduire un biais dans ces comparaisons, particulièrement dans le cas des données concernant la valeur ajoutée. Or les agrégats à l'échelle nationale et, pour la plupart, les totaux provinciaux relatifs aux industries ne seront pas touchés. C'est à dessein que la proportion des sorties déclarées sur un questionnaire abrégé représente un faible pourcentage des totaux nationaux pour la presque totalité des industries et c'est habituellement le cas pour les totaux provinciaux. Au niveau infraprovincial toutefois, de très petits établissements peuvent compter pour une grande partie des totaux d'une industrie en particulier.

La valeur ajoutée s'obtient en soustrayant les facteurs achetés de la production brute. Dans le cas des établissements qui remplissent le questionnaire long, on retranche de la production brute le coût des matières et fournitures utilisées et le coût du combustible et de l'électricité. Quant aux questionnaires abrégés, en revanche, le seul renseignement utile est le coût global des matières, fournitures, combustibles et services. Ainsi, la valeur ajoutée est gonflée par l'inclusion du coût des services sur les questionnaires longs mais **non** sur les questionnaires abrégés. Souvent la différence n'est pas négligeable pour l'établissement individuel et pourra poser un problème pour les agrégats selon les proportions relatives de la valeur ajoutée attribuables aux établissements répondant sur questionnaire abrégé.

#### d) Modifications apportées au "coût des matières, des fournitures, et des marchandises destinées à la revente"

À compter de 1976, le "Coût des matières, des fournitures et des marchandises destinées à la revente" montré sous la catégorie de l'activité totale reflète un léger changement de méthode. Auparavant cette statistique comprenait les **achats** de marchandises pour la revente en l'état; maintenant le **coût des marchandises vendues** en ce qui concerne l'activité totale est désormais compris à la place, de façon à éliminer l'effet des changements dans les inventaires de telles marchandises sur le coût des matières. ("La valeur ajoutée, activité totale a toujours été calculée de façon à exclure les distortions entraînées par les fluctuations dans les inventaires".)

## Confidentiality of Data for Individual Businesses

Statistics Canada is prohibited by law from publishing any statistics which would divulge information relating to any identifiable business without the previous consent in writing of that business. In practice, this means that, for the Census of Manufactures, no data except for number, type and location of establishments are shown for industrial or geographic aggregations composed of fewer than three companies or of three or more if these are dominated by one or two companies. The names, addresses and employment size codes of larger establishments classified to individual manufacturing industries are published in the relevant Census of Manufactures industry report.

In order to provide a systematic publication pattern which will prevent indirect (or residual) disclosure of information relating to individual establishments, choices must often be made between the publication or suppression of different levels of industrial or geographic data. Such decisions are made in accordance with an order of precedence designed to provide as detailed data as possible consistent with provisions of the Statistics Act and with requirements for industrial and regional analysis. Thus, for individual industries, Canada is given precedence over provinces. Within provinces or regions, two-digit industry groups are normally given precedence over their component three- and four-digit industries.

For the sub-provincial areas, various factors have to be considered in deciding what data can be published. At the all-industry level, the economic regions and census divisions (counties or regional districts in some provinces) are published; where one of these areas is confidential then a combination of economic regions or CD's is made. Next taking into consideration the publishability of economic regions and CD's, the CMA's are checked for publishability. If there is a conflict between publishing a CMA and a CD, the CD's would be recombined into Manufacturing Statistical Areas to overcome any problems of disclosure of confidential data. Finally, with all the municipalities which did not meet the size criteria stated earlier being considered confidential, the remaining individual municipalities are checked for publishability, taking into consideration the publishability of the economic region, CD and CMA totals.

Individual industry and/or major group data are published within a set of guidelines also. If the data are confidential at one level of aggregation any level of aggregation which is lower in preference is treated the same way. Thus if an industry is confidential at the provincial level, it cannot be published at the sub-provincial level, or if it is confidential for the economic region it cannot be published at the CMA or municipality level.

## Confidentialité des données présentées par les entreprises particulières

La Loi interdit à Statistique Canada de diffuser des données qui pourraient servir à identifier une entreprise, sans avoir obtenu au préalable l'autorisation écrite de cette dernière. Du point de vue pratique, cela signifie qu'aux fins du recensement des manufactures, aucune donnée, à l'exception du nombre, du genre et de l'emplacement des établissements, n'est publiée sur des groupements industriels ou géographiques de moins de trois entreprises ou de trois entreprises ou plus que domine une ou deux sociétés. Le nom, l'adresse et le code de taille d'effectifs de chaque gros établissement faisant partie des industries manufacturières particulières figurent dans la publication appropriée du recensement des manufactures.

Afin de produire une méthode systématique de publication des données qui empêche la divulgation indirecte (ou par recoupement) de renseignements relatifs aux établissements particuliers, on doit souvent choisir entre la diffusion ou la suppression de divers niveaux de données industrielles ou géographiques. À cette fin, on a conçu un ordre de priorité nous permettant de produire quand même des données très détaillées qui respectent les dispositions de la Loi sur la statistique et les besoins en analyse au niveau de l'industrie ou de la région. Pour ce qui est des industries particulières, les données pour le Canada ont priorité sur celles des provinces. Dans le cas des provinces et des régions, les statistiques des groupes d'industries à deux chiffres passent habituellement avant celles de leurs composantes à trois et quatre chiffres.

Pour les régions infraprovinciales, la diffusion des données repose sur divers facteurs. Au niveau de l'ensemble de l'industrie, les données sur les régions économiques et les divisions de recensement (comtés ou districts régionaux dans certaines provinces) sont publiées; lorsque les données pour un de ces niveaux sont confidentielles, alors on regroupe les régions économiques ou les DR. Puis, en tenant compte de la possibilité de publier les données des régions économiques et des DR, on vérifie s'il est possible de publier celles des RMR. S'il existe un conflit entre le fait de publier les chiffres d'une RMR et ceux d'une DR, les DR seront regroupés par Régions statistiques manufacturières en vue d'empêcher la divulgation de données confidentielles. Enfin, vu que l'on considère comme confidentielles les données de toutes les municipalités qui ne répondent pas aux critères de la taille susmentionnés, on vérifie s'il est possible de publier les données des autres municipalités individuelles, prenant en considération la possibilité de publier les totaux des régions économiques, des DR et des RMR.

La diffusion des données pour une industrie particulière ou un groupe majeur suit également un ensemble de lignes directrices. Si les données sont confidentielles à un niveau de regroupement, tout niveau inférieur est considéré de la même manière. Ainsi, lorsque les données d'une industrie sont confidentielles au niveau provincial, elles ne peuvent pas être publiées au niveau infraprovincial; ou si les données sont confidentielles pour la région économique, elles ne peuvent pas être publiées au niveau de la RMR ou de la municipalité.

## Treatment of Separately Located Head Offices, Sales Offices and Ancillary Units

It should be noted that head offices, etc., are included in national and provincial industry statistics, but are excluded from all sub-provincial manufacturing data. At the national and provincial level, such units are included in the individual industry of the company's largest activity and the effect on data is very small. At the sub-provincial level, however, the effects of such inclusions are considered serious enough to warrant special treatment. For example, since head offices of large multi-unit firms with Canada-wide operations tend to be located in the large metropolitan areas such as Toronto and Montréal, industry statistics for these centres would be overloaded with expenses relative to revenue and thus would distort inter-city or inter-area comparisons of manufacturing activity.

In order to avoid such distortions, the basic tables on location statistics (economic regions, census divisions, Census Metropolitan Areas, Census Agglomeration Areas, and municipalities) are confined to the principal statistics of manufacturing establishments excluding separately located head offices and ancillary units. These head offices, as well as establishments showing on their reports employment at other locations, are asked to report employment and payrolls, by location, of any ancillary unit employing five or more persons. These data are then given appropriate geographic codes and tabulated separately along with the main head office and other ancillary units that have submitted separate "head office" reports.

Publishable data on employment and payroll of head offices, sales offices and ancillary units are shown for Census Metropolitan Areas, municipalities and Census Divisions in Tables 10, 11 and 12 respectively.

## Spatial Concepts and Definitions

### (a) Census Divisions

Effective with 1977, the term "Census Division" replaced "county" wherever applicable. This complies with the required use of standard terminology within Statistics Canada.

Census Divisions are basic political and/or administrative divisions in Prince Edward Island, Nova Scotia, New Brunswick, Québec and Ontario called counties. In Ontario there also exist a number of regional municipalities, territorial districts, one district municipality and one metropolitan municipality. All of these are treated as CD's in this publication. In Québec, New Québec Territory is treated as a CD. The regional districts of British Columbia are also treated as CD's.

## Sièges sociaux, bureaux de vente et unités auxiliaires situés ailleurs

Il faut remarquer que les sièges sociaux, etc., sont compris dans les statistiques nationales et provinciales, mais exclus de toutes les données infraprovinciales sur les industries manufacturières. Au niveau national et provincial, ces unités sont prises en compte dans l'industrie de la principale activité de l'entreprise et l'effet sur les données est négligeable. Au niveau infraprovincial, toutefois, les incidences de ces inclusions sont considérées comme assez importantes pour motiver un traitement particulier. Par exemple, comme le siège des grandes entreprises à établissements multiples dont les activités s'étendent au Canada tout entier est d'ordinaire situé dans les grandes régions métropolitaines comme Toronto et Montréal, les statistiques industrielles de ces centres feraient ressortir beaucoup trop de dépenses par rapport aux recettes, ce qui fausserait les comparaisons d'activités manufacturières entre villes et entre régions.

Pour éviter cette distorsion, les tableaux de base de statistiques géographiques (régions économiques, divisions de recensement, régions métropolitaines de recensement, agglomérations de recensement, et municipalités) s'en tiennent aux statistiques principales des établissements manufacturiers, à l'exclusion des sièges sociaux et des unités auxiliaires situés ailleurs. Ces sièges sociaux, de même que les établissements qui déclarent avoir des salariés ailleurs, doivent déclarer le nombre de salariés et leur rémunération, selon l'endroit, pour toute unité auxiliaire comptant cinq salariés ou plus. Les déclarations de ces unités sont marquées d'un code géographique approprié et exploitées séparément, en même temps que celles des sièges sociaux et des autres unités auxiliaires qui ont présenté une déclaration distincte de "siège social".

Les données publiables sur les effectifs et rémunérations dans les sièges sociaux, les bureaux de vente et les unités auxiliaires sont présentées pour les régions métropolitaines de recensement les municipalités et les divisions de recensement aux tableaux 10, 11 et 12 respectivement.

## Concepts et définitions d'ordre géographique

### a) Divisions de recensement

Depuis 1977, on utilise l'expression "division de recensement" au lieu de "comté" par souci d'uniformité au sein de Statistique Canada.

Les divisions de recensement sont les divisions politiques et/ou administratives de base des provinces suivantes: Île-du-Prince-Édouard, Nouvelle-Écosse, Nouveau-Brunswick, Québec et Ontario (appelées comtés). L'Ontario compte également un certain nombre de municipalités régionales, de districts territoriaux, une municipalité de districts et une municipalité métropolitaine, que l'on considère tous comme DR dans cette publication. Au Québec, le Territoire du Nouveau-Québec est l'équivalent d'une DR. Les districts régionaux de la Colombie-Britannique sont aussi considérés comme des DR.

The manufacturing statistical area is a general term applying to a grouping of CD's and/or parts of CD's that describe geostatistical areas that have been specially created for this publication to encompass a CMA which falls in more than one CD, and are identified by the name of the constituent CMA. They contain both whole component and non-component municipalities of the CMA. It should be noted that not all CMA areas will be used as a criteria to build manufacturing statistical areas. Where a CMA falls entirely within one CD, there is no need for a manufacturing statistical area. However, where a CMA overlaps more than one CD, there a manufacturing statistical area will need to be constructed. In a few cases a CD will contain two CMA's or parts of CMA's and have to be split between two manufacturing statistical areas.

The introduction of manufacturing statistical areas will reduce or eliminate the problem of residual disclosure between metropolitan areas and CD's at the major group and industry detail level. Moreover, it is essential to note that the method of constructing manufacturing statistical areas is very similar to that of combining CD's at the all-industry level. That is, by combining the figures of the confidential CD with one or more suppressed CD's, the combined CD's total becomes publishable and the confidential figures are protected. However, in the attempt to combine whole CD's in the construction of manufacturing statistical areas certain exceptions are encountered. The problem is similar to that of economic regions, in that, the regions do not always respect CD boundaries. In the case of manufacturing statistical areas, where two or more CMA's are located in one CD, that CD will then be split up according to which municipalities are components of which CMA. In addition, the non-component municipalities will also be added to the adjacent CMA to construct the manufacturing statistical area in order to provide a meaningful aggregation for statistical purposes. For example, as a result of the construction of the manufacturing statistical areas of Toronto and Oshawa, the municipalities in Durham Regional municipality had to be split up between the CMA's of Toronto and Oshawa. Municipalities which fall within CMA limits are assigned directly to the manufacturing statistical area involved. Additional municipalities which are not component members of one of the CMA's were arbitrarily allocated to one of the two manufacturing statistical areas where it was felt to be appropriate in producing a meaningful geostatistical area.

In 1984 there are 24 manufacturing statistical areas in Canada of which two are located in New Brunswick, nine in Québec, twelve in Ontario, and one in British Columbia (see Appendix II on Outline of Manufacturing Statistical areas). The principal statistics of manufacturing statistical areas are shown along with the CD's in Table 2 in this publication.

## (b) Economic Regions

These regions have been established to meet needs for data for larger and more relevant areas than CD's but smaller than provinces. Except for Québec and Ontario, economic regions are combinations of CD's grouped together to provide a meaningful regional aggregation for

La région statistique manufacturière est une expression générale qui désigne un groupe de DR ou de parties de DR correspondant aux unités géostatistiques créées spécialement pour cette publication pour englober une RMR qui chevauche plus d'une DR et portant le nom de la RMR en question. Sont comprises les municipalités composantes et non composantes de la RMR. À noter que les RMR ne serviront pas toujours à créer des régions statistiques manufacturières. Lorsqu'une RMR ne déborde pas les limites d'une DR, la région statistique manufacturière n'est pas nécessaire. Toutefois, si la RMR chevauche plus d'une DR, il faut construire une région statistique manufacturière. Une DR peut parfois comprendre deux RMR ou parties de RMR et doit alors être divisée en deux régions statistiques manufacturières.

L'introduction de régions statistiques manufacturières permet de réduire ou d'éliminer le problème des déductions par recoupe-ment entre les régions métropolitaines et les DR au niveau d'agrégation du groupe et de l'industrie. De plus, il faut noter que la méthode de formation des régions statistiques manufacturières est très semblable à celle qui sert à combiner des DR au niveau de l'ensemble des industries. Il suffit en effet de regrouper les chiffres d'une DR confidentielle avec ceux d'une ou de plusieurs DR supprimées pour arriver à un total publiable qui n'enfreint pas la loi du secret. Toutefois, il n'est pas toujours possible de combiner des DR entières pour construire des régions statistiques manufacturières. Le problème est le même que pour les régions économiques, c'est-à-dire que les régions ne respectent pas toujours les limites des DR. Dans le cas des régions statistiques manufacturières à former à partir d'une DR comprenant deux ou plusieurs RMR, il faut diviser la DR en fonction des différentes municipalités composantes de chaque RMR. Les municipalités non composantes doivent également être comprises dans la RMR adjacente pour que la région statistique manufacturière constitue une agrégation valable à des fins statistiques. Par exemple, au moment de construire les régions statistiques manufacturières de Toronto et de Oshawa. Il a fallu répartir les municipalités de *Durham Regional municipality* entre les RMR de Toronto et de Oshawa. Les municipalités à l'intérieur des limites d'une RMR sont attribuées directement à la région statistique manufacturière en cause. Quant aux municipalités additionnelles non composantes de l'une ou l'autre des RMR, on les classe arbitrairement à l'une des deux régions statistiques manufacturières dans le but de produire une unité géostatistique valable.

En 1984 le Canada compte 24 régions statistiques manufacturières dont deux au Nouveau-Brunswick, neuf au Québec, douze en Ontario et une en Colombie-Britannique (voir la liste des composantes des régions statistiques manufacturières à l'appendice II). Le tableau 2 de cette publication présente les statistiques principales sur les régions statistiques manufacturières et sur les DR.

## b) Régions économiques

On a créé ces régions pour répondre aux besoins en données concernant des secteurs plus grands et plus pertinents que les DR, mais plus petits que les provinces. Sauf pour le Québec et l'Ontario, les régions économiques sont des regroupements de DR qui constituent une agrégation régionale utile à des fins

analysis and planning. In Québec, the regions are the 10 administrative regions established by the provincial government and these do not always respect CD boundaries. In Ontario, starting with 1974 data, the economic regions are the same as the five planning regions established by the provincial government. These regions are similar to the regions previously used in the case of northern Ontario in the past but are quite different in the south. These planning regions respect CD boundaries except for (i) the southern part of Nipissing District and (ii) the northern part of Kenora District, where the district lies in two planning regions. All economic region codes in Canada now coincide with those in the Standard Geographical Classification (SGC) effective with the 1976 issue of this publication. The actual geographical boundaries have always agreed with those in the SGC.<sup>2</sup>

### (c) Municipalities

Municipal organization is not uniform across Canada, but varies from province to province. Many of these local government units are highly organized such as incorporated cities but others are not, such as the local improvement districts in the Prairie provinces. Data for the following types of municipalities, Indian reserves and unorganized sub-divisions were collected and will appear in this publication, where publishable under the Statistics Act.

#### Municipalities

BOR	borough
C	city
DM	district municipality
ID	improvement district
LGC	local government community
LGD	local government district
LID	local improvement district
MD	municipal district
PAR	parish
RD	rural district
RM	rural municipality
T	town
TWP	township
VL	village

#### Indian Reserves

#### Unorganized Subdivisions

### (d) Census Metropolitan Areas

These geostatistical areas are designed by Statistics Canada to identify a large (a population greater than 100,000) and interrelated socio-economic community, typically including a number of municipalities. The boundaries used in 1981 for the 24 CMA's were identical to

<sup>2</sup> Statistics Canada, Standards Division paper, sub-provincial regions of Statistics Canada, 1976.

d'analyse et de planification. Au Québec, les régions sont les 10 régions administratives créées par l'administration provinciale et elles ne respectent pas toujours les limites de DR. En Ontario, depuis 1974, les régions économiques sont les mêmes que les cinq régions de planification établies par l'administration provinciale. Ces régions sont semblables à celles qui étaient utilisées antérieurement dans le nord de l'Ontario, mais elles sont assez différentes dans le sud. Ces régions de planification respectent les limites de DR sauf pour (i) la partie sud du district de Nipissing et (ii) la partie nord du district de Kenora, où le district empiète sur deux régions de planification. Les codes de toutes les régions économiques du Canada coïncident maintenant avec ceux de la Classification géographique type (CGT), avec la parution de l'édition 1976 de la présente publication. Les vraies limites géographiques ont toujours été conformes à celles de la CGT<sup>2</sup>.

### c) Municipalités

L'organisation des municipalités n'est pas uniforme dans tout le Canada, mais elle varie d'une province à l'autre. Bon nombre de ces unités d'administration locale sont hautement organisées (c'est le cas par exemple des cités constituées), tandis que d'autres ne le sont pas (par exemple les districts d'amélioration locale dans les provinces des Prairies). Les données sont recueillies pour les genres de municipalité, de réserve indienne et de subdivision non municipalisée et paraîtront dans la présente publication, si la chose est possible aux termes de la Loi sur la statistique.

#### Municipalités

BOR	borough
C	cité
CAL	centre d'administration locale
CT	canton
DA	district d'amélioration
DAL	district d'amélioration locale
DGL	district de gouvernement local
DM	district municipal
DR	district rural
MD	municipalité de district
MR	municipalité rurale
PAR	paroisse
V	ville
VL	village

#### Réserves indiennes

#### Subdivisions non-organisées

### d) Régions métropolitaines de recensement

Statistique Canada a créé ces secteurs géostatistiques pour désigner une vaste collectivité (de plus de 100,000 habitants) socio-économique interdépendante, comprenant généralement un certain nombre de municipalités. Les limites retenues en 1981 pour les 24 régions métropolitaines de recensement étaient

<sup>2</sup> Statistique Canada, publication de la Division des normes, régions infraprovinciales de Statistique Canada, 1976.

those used for the 1981 Census of Population. However, for subsequent years these boundaries may have changed, reflecting any amalgamations which occurred involving component and non-component municipalities of a CMA.

For further information on CMA's and CA's refer to Catalogue 92-806, *1981 Census of Canada, Population: Geographic Distribution*.

#### (e) Census Agglomerations

These geostatistical areas are designed by Statistics Canada to identify an urbanized area which is smaller than a Census Metropolitan Area but also forming an interrelated socio-economic community, typically including a number of municipalities.

#### Other Available Data

From time to time, occasional publications are produced that are valuable to the user of spatially-oriented manufacturing statistics. For example, regional information on foreign ownership of manufacturing in Canada is available in the biennial publication: *Domestic and Foreign Control of Manufacturing Establishments in Canada, 1981*, Catalogue 31-401.

identiques à celles utilisées lors du recensement de la population de 1981. Pour les années subséquentes, par ailleurs, ces limites peuvent avoir changé par suite de fusions impliquant des municipalités composantes et non-composantes d'une RMR.

Pour de plus amples renseignements sur les RMR et sur les AR, prière de se référer au no 92-806 au catalogue, *Recensement du Canada de 1981, Population: Répartition géographique*.

#### e) Agglomérations de recensement

Statistique Canada a créé ces régions géostatistiques pour désigner les régions urbaines moins grandes qu'une région métropolitaine de recensement mais n'en constituant pas moins une communauté socio-économique interdépendante comprenant généralement un certain nombre de municipalités.

#### Autres données disponibles

De temps à autre, paraissent des publications hors série qui sont d'une grande utilité pour l'utilisateur de statistiques manufacturières axées sur la dimension spatiale. Par exemple des renseignements régionaux sur la propriété étrangère dans l'industrie manufacturière au Canada sont disponibles dans la publication bisannuelle: *Le contrôle national et étranger des établissements manufacturiers au Canada, 1981*, no 31-401 au catalogue.

| 56 Chambly          | 66 Laprairie                         |
| 32 Champlain        | 62 L'Assomption                      |
| 11 Charlevoix-Est   | 21 Lévis                             |
| 12 Charlevoix-Ouest | 13 L'Islet                           |
| 69 Châteauguay      | 28 Lotbinière                        |
| 94 Chicoutimi       | 47 Maskinongé                        |
| 25 Compton          | 06 Matane                            |
| 73 Deux-Montagnes   | 05 Matapédia                         |
| 22 Dorchester       | 27 Mégantic                          |
| 41 Drummond         | 54 Missisquoi                        |
| 24 Frontenac        | 61 Montcalm                          |
| 02 Gaspé-Est        | 14 Montmagny                         |
| 03 Gaspé-Ouest      | 17 Montmorency <sup>1</sup>          |
| 78 Gatineau         | 16 Montmorency <sup>2</sup>          |
| 79 Hull             | 67 Napierville                       |

The Economic Region boundaries do not always respect CD boundaries. The following CD's are crossed over by one or more Economic Regions:

### Census Divisions<sup>2</sup> - Divisions de recensement<sup>2</sup>

- |              |                          |
|--------------|--------------------------|
| 84 Abitibi   | 28 Lotbinière            |
| 49 Berthier  | 47 Maskinongé            |
| 24 Frontenac | 27 Mégantic              |
| 58 Joliette  | 61 Montcalm              |
| 76 Labelle   | 75 Papineau <sup>4</sup> |

### Manufacturing Statistical Areas<sup>4</sup>

- 1 Hull
- 2 Montréal
- 3 Québec
- 4 Saint-Hyacinthe
- 5 Saint-Jean
- 6 Saint-Jérôme
- 7 Shawinigan
- 8 Trois-Rivières
- 9 Sherbrooke

Statistical Areas are special geographical areas involving a grouping of two or more CD's or parts of CD's, or occasionally a part of one CD, set up to meet confidentiality requirements.

<sup>1</sup> Statistics Canada, Standards Division paper, sub-provincial regions of Statistics Canada, 1976.

<sup>2</sup> Census Division is a general term applying to counties and territorial districts in some provinces.

<sup>3</sup> Îles-de-la-Madeleine not shown on map.

<sup>4</sup> See Appendix II for Outline of Manufacturing Statistical Areas.

<sup>5</sup> In this publication only, the whole of Papineau CD (75) has been included in Outaouais economic region (46) for statistical reasons and confidentiality purposes.

## QUÉBEC

### Régions économiques

- 40 Bas-Saint-Laurent-Gaspésie
- 41 Saguenay - Lac-Saint-Jean
- 42 Québec
- 43 Trois-Rivières
- 44 Estrie
- 45 Montréal
- 46 Outaouais
- 47 Abitibi - Témiscamingue
- 48 Côte-Nord (Québec)
- 49 Nouveau-Québec

À compter de 1976, les numéros de code utilisés pour les régions économiques du Québec sont identiques à ceux de la Classification géographique type utilisés par Statistique Canada<sup>1</sup>. Cependant, les vraies limites des régions économiques ne changent pas.

- |                                    |
|------------------------------------|
| 33 Nicolet                         |
| 75 Papineau <sup>5</sup>           |
| 80 Pontiac                         |
| 29 Portneuf                        |
| 20 Québec                          |
| 50 Richelieu                       |
| 35 Richmond                        |
| 07 Rimouski                        |
| 08 Rivière-du-Loup                 |
| 52 Rouville                        |
| 97 Saguenay                        |
| 51 Saint-Hyacinthe                 |
| 55 Saint-Jean                      |
| 43 Saint-Maurice                   |
| 39 Shefford                        |
| 36 Sherbrooke                      |
| 71 Soulanges                       |
| 37 Stanstead                       |
| 83 Témiscamingue                   |
| 09 Témiscouata                     |
| 63 Terrebonne                      |
| 99 Territoire-du<br>Nouveau-Québec |
| 72 Vaudreuil                       |
| 57 Verchères                       |
| 26 Wolfe                           |
| 42 Yamaska                         |

Les limites des régions économiques ne sont pas toujours conformes à celles des DR. Une ou plusieurs régions économiques recoupent les DR suivantes:

- |             |
|-------------|
| 29 Portneuf |
| 20 Québec   |
| 07 Rimouski |
| 97 Saguenay |
| 26 Wolfe    |
| 42 Yamaska  |

### Régions statistiques manufacturières<sup>4</sup>

- 1 Hull
- 2 Montréal
- 3 Québec
- 4 Saint-Hyacinthe
- 5 Saint-Jean
- 6 Saint-Jérôme
- 7 Shawinigan
- 8 Trois-Rivières
- 9 Sherbrooke

Les régions statistiques sont des régions géographiques spéciales renfermant soit deux DR ou parties de DR ou plus, soit à l'occasion une partie d'une DR établie pour respecter certaines exigences de confidentialité.

<sup>1</sup> Statistique Canada, publication de la Division des normes, régions infraprovinciales de Statistique Canada, 1976.

<sup>2</sup> Division de recensement est un terme générique qui désigne les comtés et les districts territoriaux dans certaines provinces.

<sup>3</sup> Îles-de-la-Madeleine n'est pas indiqué sur la carte.

<sup>4</sup> Voir appendice II pour le Contenu des régions statistiques manufacturières.

<sup>5</sup> Aux fins de la présente publication seulement, toute la division de recensement de Papineau (75) a été comprise dans la région économique de l'Outaouais (46) pour raisons statistiques et de confidentialité.

# Quebec – 1984 – Québec

Economic regions, census divisions  
and manufacturing statistical areas

Régions économiques, divisions de recensement  
et régions statistiques manufacturières

(See notes on facing page. – Voir les notes ci-contre.)

## Legend – Légende

- Census division – Division de recensement
- Economic region – Région économique
- Manufacturing statistical area  
Région statistique manufacturière

## ONTARIO

### Economic Regions

- 50 Eastern Ontario
- 51 Central Ontario
- 52 Southwestern Ontario
- 53 Northeastern Ontario
- 54 Northwestern Ontario

The Economic Regions in Ontario are the same as the five planning regions established by the provincial government.

### Census Divisions<sup>1</sup> - Divisions de recensement<sup>1</sup>

- 57 Algoma District
- 29 Brant
- 41 Bruce
- 56 Cochrane District
- 22 Dufferin
- 05 Dundas
- 18 Durham, RM - MR
- 34 Elgin
- 37 Essex
- 10 Frontenac
- 01 Glengarry
- 07 Grenville
- 42 Grey
- 28 Haldimand - Norfolk, RM - MR
- 46 Haliburton
- 24 Halton, RM - MR
- 25 Hamilton-Wentworth, RM - MR
- 12 Hastings

- 40 Huron
- 60 Kenora District
- 36 Kent
- 38 Lambton
- 09 Lanark
- 08 Leeds
- 11 Lennox and - et Addington
- 51 Manitoulin District
- 39 Middlesex
- 44 Muskoka District Municipality
- 26 Niagara, RM - MR
- 48 Nipissing district
- 14 Northumberland
- 06 Ottawa-Carleton, RM - MR
- 32 Oxford
- 49 Parry Sound District
- 21 Peel, RM - MR
- 31 Perth

The Economic Region boundaries always respect CD boundaries except for the southern part of Algonquin Provincial Park in Nipissing District and Kenora in northern Ontario.

### Manufacturing Statistical Areas<sup>2</sup>

- |                          |              |
|--------------------------|--------------|
| 1 Hamilton               | 7 Brockville |
| 2 London                 | 8 Kingston   |
| 3 Oshawa                 | 9 Belleville |
| 4 St. Catharines-Niagara | 10 Trenton   |
| 5 Toronto                | 11 Cobourg   |
| 6 Ottawa                 | 12 North Bay |

Statistical Areas are special geographical areas involving a grouping of two or more CD's or parts of CD's, or occasionally a part of one CD, set up to meet confidentiality requirements.

<sup>1</sup> Census Division is a general term applying to counties, regional municipalities, territorial districts and one metropolitan municipality in Ontario.

<sup>2</sup> See Appendix II for Outline of Manufacturing Statistical Areas.

## ONTARIO

### Régions économiques

- 50 Est-de-l'Ontario
- 51 Centre-de-l'Ontario
- 52 Sud-Ouest-de-l'Ontario
- 53 Nord-Est-de-l'Ontario
- 54 Nord-Ouest-de-l'Ontario

Les régions économiques de l'Ontario sont les mêmes que les cinq régions administratives établies par l'administration provinciale.

- 15 Peterborough
- 02 Prescott
- 13 Prince Edward
- 59 Rainy River District
- 47 Renfrew
- 03 Russell
- 43 Simcoe
- 04 Stormont
- 52 Sudbury District
- 53 Sudbury, RM - MR
- 58 Thunder Bay District
- 54 Timiskaming District
- 20 Toronto Metropolitan Municipality
- 16 Victoria
- 30 Waterloo, RM - MR
- 23 Wellington
- 19 York, RM - MR

Les limites des régions économiques sont toujours les mêmes que celles des DR, à l'exception de la partie sud du parc provincial Algonquin situé dans le district de Nipissing et de Kenora au nord de l'Ontario.

### Régions statistiques manufacturières<sup>2</sup>

- |                          |              |
|--------------------------|--------------|
| 1 Hamilton               | 7 Brockville |
| 2 London                 | 8 Kingston   |
| 3 Oshawa                 | 9 Belleville |
| 4 St. Catharines-Niagara | 10 Trenton   |
| 5 Toronto                | 11 Cobourg   |
| 6 Ottawa                 | 12 North Bay |

Les régions statistiques sont des régions géographiques spéciales renfermant soit deux DR ou parties de DR ou plus, soit à l'occasion une partie d'une DR établie pour respecter certaines exigences de confidentialité.

<sup>1</sup> Division de recensement est un terme générique qui désigne les comtés, les municipalités régionales, les districts territoriaux et la municipalité métropolitaine en Ontario.

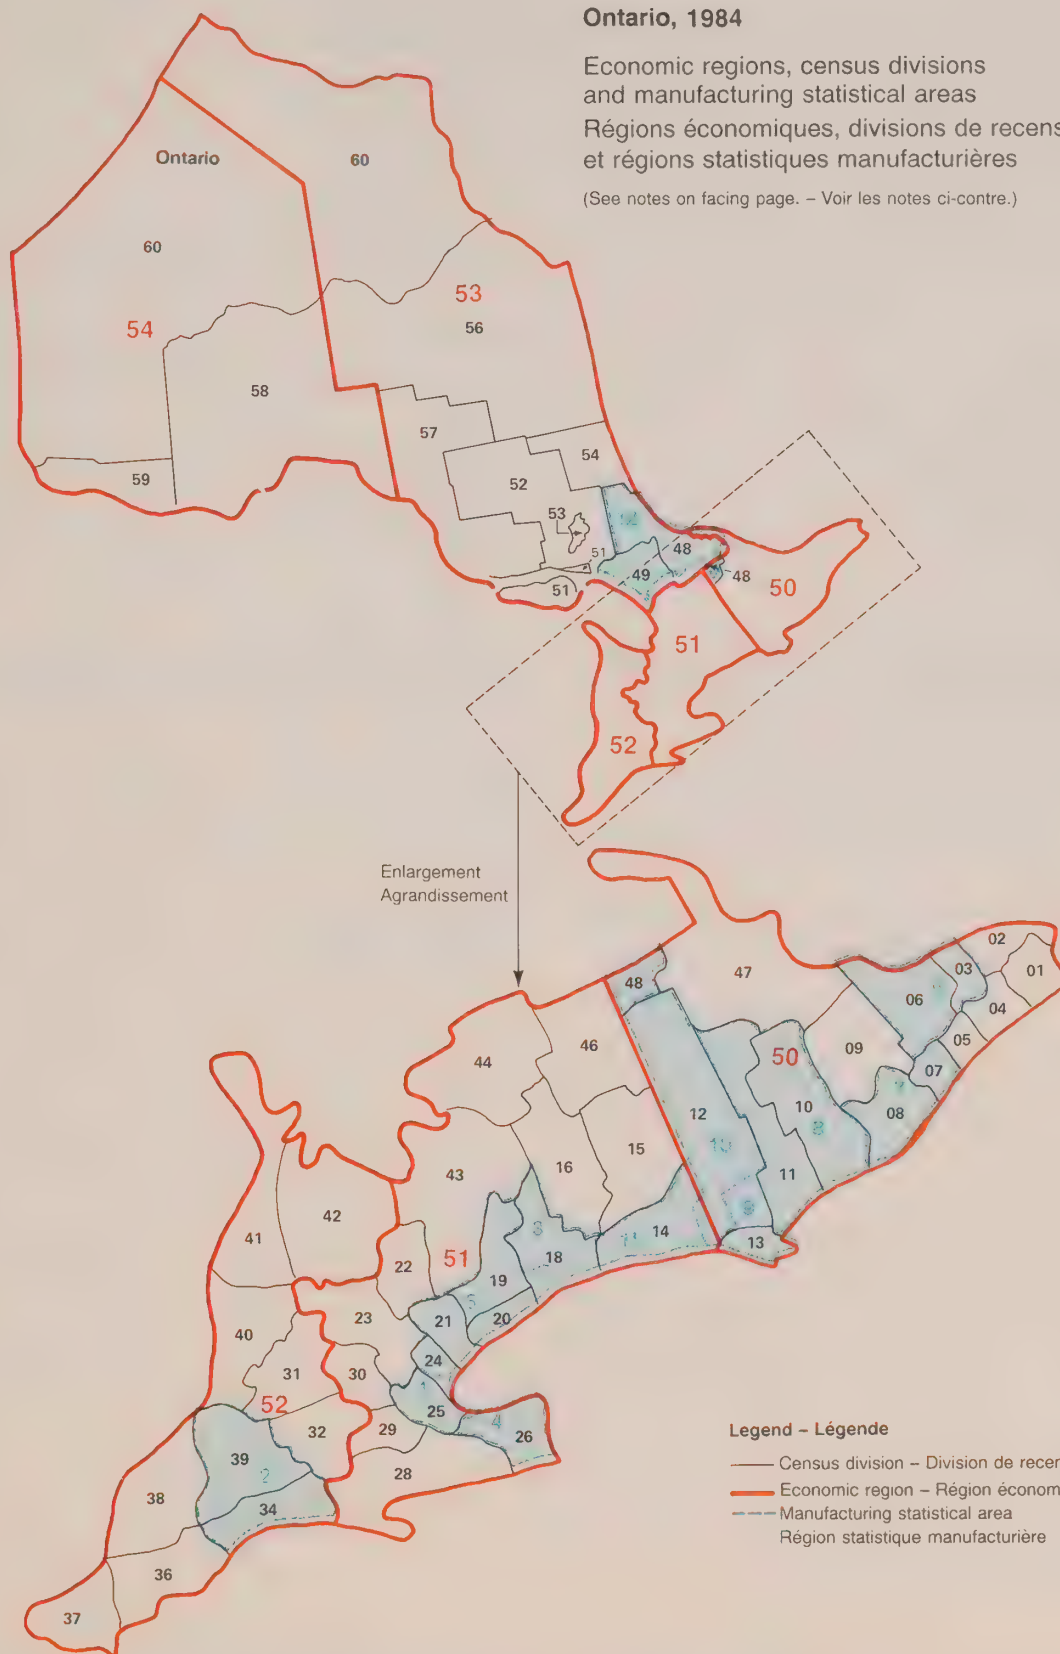

<sup>2</sup> Voir appendice II pour le Contenu des régions statistiques manufacturières.

## SASKATCHEWAN

### Economic Regions

- 70 Regina-Moose Mountain
- 71 Swift Current-Moose Jaw
- 72 Saskatoon-Biggar
- 73 Yorkton-Melville
- 74 Prince Albert
- 75 Northern Saskatchewan

Census Divisions in Saskatchewan are identified by number only.

## MANITOBA

### Economic Regions

- 60 Southeastern Manitoba
- 61 South Central Manitoba
- 62 Southwestern Manitoba
- 63 North Central Manitoba
- 64 Winnipeg
- 65 Interlake
- 66 Parkland
- 67 Northern Manitoba

Effective with 1976, the boundaries and code numbers of the Economic Regions in Manitoba have been revised to coincide with those of the Standard Geographical Classification used by Statistics Canada.<sup>1</sup>

Census Divisions in Manitoba are identified by number only.

There are no Manufacturing Statistical Areas in Manitoba effective in 1982.<sup>2</sup>

<sup>1</sup> Statistics Canada, Standards Division paper, sub-provincial regions of Statistics Canada, 1976.

<sup>2</sup> See Appendix II for Outline of Manufacturing Statistical Areas.

## SASKATCHEWAN

### Régions économiques

- 70 Regina-Moose Mountain
- 71 Swift Current-Moose Jaw
- 72 Saskatoon-Biggar
- 73 Yorkton-Melville
- 74 Prince albert
- 75 Saskatchewan du Nord

Les divisions de recensement de la Saskatchewan ne sont identifiées que par un numéro.

## MANITOBA

### Régions économiques

- 60 Sud-Est-du-Manitoba
- 61 Centre-Sud-du-Manitoba
- 62 Centre-Ouest-du-Manitoba
- 63 Centre-Nord-du-Manitoba
- 64 Winnipeg
- 65 Interlake
- 66 Parkland
- 67 Nord-du-Manitoba

À compter de 1976, les limites et les numéros de code des régions économiques du Manitoba ont été révisés de manière à coïncider avec ceux de la Classification géographique type utilisés par Statistique Canada<sup>1</sup>.

Les divisions de recensement du Manitoba ne sont identifiées que par un numéro.

Il n'y a pas de Régions statistiques manufacturières au Manitoba à compter de 1982.<sup>2</sup>

<sup>1</sup> Statistique Canada, publication de la Division des normes, régions infraprovinciales de Statistique Canada, 1976.

<sup>2</sup> Voir appendice II pour le Contenu des régions statistiques manufacturières.

Tableau 1. STATISTIQUES PRINCIPALES DES REGIONS ECONOMIQUES PAR GROUPE, 1984 - Suite

Total activity — Activité totale										Province, régions économiques et groupe	Code		
Working owners and partners — Propriétaires et associés actifs	Employees — Salariés						Cost of materials, supplies and goods for resale — Coût des matières, des fournitures et des marchandises destinées à la revente	Value of shipments and other revenue — Valeur des livraisons et autres recettes	Value added — Valeur ajoutée				
	Administrative, office and other non-manufacturing employees — Administration, bureau et autre personnel hors fabrication			Total employees — Total des salariés									
				Number — Nombre	Salaries and wages — Traitements et salaires								
						Male — Hommes						Female — Femmes	Salaries — Traitements
number - nombre			\$'000			\$'000

Tableau 1. STATISTIQUES PRINCIPALES DES REGIONS ECONOMIQUES PAR GROUPE, 1984 - Suite

Total activity — Activité totale										Province, régions économiques et groupe	Code		
Working owners and partners — Propriétaires et associés actifs	Employees — Salariés						Cost of materials, supplies and goods for resale — Coût des matières, des fournitures et des marchandises destinées à la revente	Value of shipments and other revenue — Valeur des livraisons et autres recettes	Value added — Valeur ajoutée				
	Administrative, office and other non-manufacturing employees — Administration, bureau et autre personnel hors fabrication			Total employees — Total des salariés									
				Number — Nombre	Salaries and wages — Traitements et salaires								
	Male — Hommes	Female — Femmes	Salaries — Traitements										
number - nombre			\$'000			\$'000

Tableau 1. STATISTIQUES PRINCIPALES DES REGIONS ECONOMIQUES PAR GROUPE, 1984 - Suite

Total activity — Activité totale										Province, régions économiques et groupe	Cod		
Working owners and partners — Propriétaires et associés actifs	Employees — Salariés					Cost of materials, supplies and goods for resale — Coût des matières, des fournitures et des marchandises destinées à la revente	Value of shipments and other revenue — Valeur des livraisons et autres recettes	Value added — Valeur ajoutée					
	Administrative, office and other non-manufacturing employees — Administration, bureau et autre personnel hors fabrication			Total employees — Total des salariés									
				Number — Nombre	Salaries and wages — Traitements et salaires								
									Male — Hommes			Female — Femmes	Salaries — Traitements
number - nombre			\$'000		\$'000

Table 2. PRINCIPAL STATISTICS OF CENSUS DIVISIONS OR MANUFACTURING STATISTICAL AREAS,  
BY MAJOR group, 1984 - Continued

Code	Province, census division and major group	Estab- lish- ments — Eta- blisse- ments	Manufacturing activity — Activité manufacturière							
			Production and related workers — Travailleurs de la production et assimilés				Cost of fuel and elec- tricity — Coût du combus- tible et de l'élec- tricité	Cost of materials and supplies used — Coût des matières et fournitures utilisées	Value of shipments of goods of own manufacture — Valeur des livraisons de produits de propre fabrication	Value added — Valeur ajoutée
			Male — Hommes	Female — Femmes	Person hours paid — Heures- personnes payées	Wages — Salaires				
			number - nombre		'000			\$'000

**Tableau 2. STATISTIQUES PRINCIPALES DES DIVISIONS DE RECENSEMENT OU REGIONS STATISTIQUES MANUFACTURIERES,  
PAR groupe, 1984 - Suite**

Total activity — Activité totale										Province, division de recensement et groupe	Code		
Working owners and partners — Propriétaires et associés actifs	Employees — Salariés						Cost of materials, supplies and goods for resale — Coût des matières, des fournitures et des marchandises destinées à la revente	Value of shipments and other revenue — Valeur des livraisons et autres recettes	Value added — Valeur ajoutée				
	Administrative, office and other non-manufacturing employees — Administration, bureau et autre personnel hors fabrication			Total employees — Total des salariés									
				Number — Nombre	Salaries and wages — Traitements et salaires								
						Male — Hommes						Female — Femmes	Salaries — Traitements
number - nombre			\$'000			\$'000

Tableau 3. STATISTIQUES PRINCIPALES DES REGIONS METROPOLITAINES DE RECENSEMENT, PAR GROUPE ET INDUSTRIE, 1984 - Suite

Total activity — Activité totale										Régions métropolitaines de recensement, groupe et industrie	Code		
Working owners and partners — Propriétaires et associés actifs	Employees — Salariés						Cost of materials, supplies and goods for resale — Coût des matières, des fournitures et des marchandises destinées à la vente	Value of shipments and other revenue — Valeur des livraisons et autres recettes	Value added — Valeur ajoutée				
	Administrative, office and other non-manufacturing employees — Administration, bureau et autre personnel hors fabrication			Total employees — Total des salariés									
				Number — Nombre	Salaries and wages — Traitements et salaires								
						Male — Hommes						Female — Femmes	Salaries — Traitements
number - nombre			\$'000			\$'000

**Tableau 5. STATISTIQUES PRINCIPALES DE CERTAINES MUNICIPALITES DONT LES LIVRAISONS DE PRODUITS DE PROPRE FABRICATION ATTEIGNENT OU DEPASSENT TRENTE MILLIONS DE DOLLARS, PAR PROVINCE ET GROUPE, 1984 - Suite**

Total activity — Activité totale										Province, municipalité et groupe	Code		
Working owners and partners — Propriétaires et associés actifs	Employees — Salariés						Cost of materials, supplies and goods for resale — Coût des matières, des fournitures et des marchandises destinées à la revente	Value of shipments and other revenue — Valeur des livraisons et autres recettes	Value added — Valeur ajoutée				
	Administrative, office and other non-manufacturing employees — Administration, bureau et autre personnel hors fabrication			Total employees — Total des salariés									
				Number — Nombre	Salaries and wages — Traitements et salaires								
						Male — Hommes						Female — Femmes	Salaries — Traitements
number - nombre			\$'000			\$'000

<sup>1</sup> Includes all such reporting units included in provincial totals in reports on individual manufacturing industries at the three-digit or four-digit level of the 1980 Standard Industrial Classification. See the section on "separately located head offices, sales offices and ancillary units" in the "Introduction".

<sup>2</sup> Ce poste comprend toutes les unités dans les rapports provinciaux sur la statistique des manufactures ou comptées dans le total par province dans les rapports sur les industries manufacturières individuelles à l'échelon des indicatifs à trois ou quatre chiffres de la Classification des activités économiques de 1980. Voir la section intitulée "sièges sociaux, bureaux de vente et unités auxiliaires situés ailleurs" dans l'"introduction".

<sup>2</sup> To obtain further information on the location of head offices, refer to the inside front cover of this publication under the title heading "How to Obtain More Information".

<sup>2</sup> Pour obtenir des précisions sur l'emplacement des sièges sociaux, voir les renseignements figurant au verso de la page couverture de la présente publication sous la rubrique "Comment obtenir d'autres renseignements".

## SELECTED PUBLICATIONS

### Reports on the Annual Census of Manufactures

This report is one of the general, or all-industry, series presenting the results of the annual Census of Manufactures. The complete general series, containing principal statistics on individual industries and industry groups for all of Canada or its various geographical subdivisions, is as follows:

#### Catalogue

##### Annual Reports

- 31-203 Manufacturing Industries of Canada: National and provincial Areas
- 31-209 Manufacturing Industries of Canada: Subprovincial Areas<sup>1</sup>
- 31-210 Manufacturing Industries of Canada: Type of Organization and Size of Establishment. Discontinued; last issue, 1976. Some tables continued in Catalogue 31-203.
- 31-211 Products Shipped by Canadian Manufacturers
- 31-212 Consumption of Containers and Other Packaging Supplies by the Manufacturing Industries
- 57-208 Consumption of Purchased Fuel and Electricity by the Manufacturing, Mining, Logging and Electric Power Industries.

##### Biennial Reports

- 31-401 Dometic and Foreign Control of Manufacturing, Mining and Logging Establishments in Canada
- 31-402 Industrial Organization and Concentration in the Manufacturing, Mining and Logging Industries

##### Occasional Reports

- 31-523 Structural Aspects of Domestic and Foreign Control in the Manufacturing, Mining and Forestry Industries, 1970-1972
- 31-528 Concepts and Definitions of the Census of Manufactures
- 31-530 Destination of Shipments of Manufacturers, 1979 (1984 forthcoming)

In addition to these general reports, some 70 annual reports on individual industries contain quantities and values of products shipped and of materials used by the individual industry as well as some of the principal statistics carried in the general reports and certain additional industry information.

<sup>1</sup> Principal statistics of industries for Economic regions, census divisions (counties), Census Metropolitan Areas, specific Census Agglomerations and municipalities.

## CHOIX DE PUBLICATIONS

### Rapports concernant le recensement annuel des manufactures

Le présent rapport fait partie de la série générale qui s'applique à toutes les industries et qui donne les résultats du recensement annuel des manufactures. Voici la série générale complète contenant les statistiques principales sur chaque industrie en particulier sur les groupes d'industries au Canada entier ou dans ses différentes subdivisions géographiques:

#### Catalogue

##### Rapports annuels

- 31-203 Industries manufacturières du Canada: Niveaux national et provincial
- 31-209 Industries manufacturières du Canada: Niveau infraprovincial<sup>1</sup>
- 31-210 Industries manufacturières du Canada: Forme d'organisation et taille des établissements. Ne paraît plus; dernière édition, 1976. Certains tableaux continuent dans le n<sup>o</sup> 31-203 au catalogue.
- 31-211 Produits livrés par les fabricants canadiens
- 31-212 Consommation de contenants et autres matières d'emballage, par industrie manufacturière
- 57-208 Consommation de combustibles et d'électricité achetés par les industries manufacturières, minérales et de l'exploitation forestière et par les centrales thermiques des services d'électricité.

##### Rapports biennaux

- 31-401 Le contrôle national et étranger des établissements du secteur de la fabrication, des mines et de l'abattage au Canada
- 31-402 Organisation des industries et concentration dans le secteur de la fabrication, des mines et de l'abattage

##### Hors série

- 31-523 Les aspects structuraux du contrôle national et étranger dans les industries manufacturières, minières et forestières, 1970-1972
- 31-528 Concepts et définitions du recensement des manufactures
- 31-530 Destination des livraisons des manufacturiers, 1979 (1984 à venir)

En plus de ces rapports généraux, il existe quelques 70 publications annuelles sur des industries particulières; celles-ci contiennent les données suivantes: quantité et valeur des produits livrés et des matières utilisées par chaque industrie, certaines des statistiques principales publiées dans les rapports généraux et certaines données supplémentaires sur chaque industrie.

<sup>1</sup> Statistiques principales sur les industries pour les régions économiques, les divisions de recensement (comtés), les régions métropolitaines de recensement, certaines agglomérations de recensement et municipalités.

As well as the above manufacturing publications, Statistics Canada publishes a wide range of statistical reports on Canadian economic and social affairs. A comprehensive catalogue of all current publications may be obtained from Publication Sales, Statistics Canada, Ottawa (Canada), K1A 0T6, by ordering catalogue 11-204E, "Statistics Canada: Current Publications Index", price Canada \$10.00, Other countries \$11.50.

En plus des publications manufacturières ci-dessus, Statistique Canada publie une grande variété de bulletins statistiques sur la situation économique et sociale du Canada. On peut se procurer un catalogue complet des publications courantes en s'adressant à Section des ventes des publications, Statistique Canada, Ottawa (Canada), K1A 0T6, en demandant le catalogue n<sup>o</sup> 11-204F, "Statistique Canada: Répertoire des publications," prix Canada \$10.00, Autres pays \$11.50.

## EXPLANATORY NOTES

The following abbreviated notes deal only with salient points or selected inclusions or exclusions which might not be self-evident. Detailed concepts and definitions may be obtained by ordering *Concepts and Definitions of the Census of Manufactures*, Catalogue 31-528. This may be ordered from Publication Sales, Statistics Canada, Ottawa, K1A 0T6.

**1. Establishment.** The smallest operating unit capable of reporting certain specified input and output data; usually a plant or mill. The number for 1975 declined owing to the exclusion of existing establishments deemed to have no paid employees. Principal statistics of an establishment active in more than one municipality are prorated to "quasi-establishment" locations, treated as establishments in compilations.

**2. Reporting period.** Any fiscal year ending not earlier than April 1 of the reference year not later than March 31 of the following year.

**3. Cost of materials and supplies.** Generally, consumption of purchased items only at laid-down cost including transportation and handling charges, duties, etc. Includes transfers between units of the same company and work done on contract by others. At the manufacturing activity level, this item represents purchased items used in manufacturing operations.

**4. Cost of fuel and electricity.** Consumption of purchased fuel and electricity only, at laid-down cost including transportation and handling charges, duties, etc. Data for non-manufacturing activity included under manufacturing activity except where an ancillary office uses a separate "head office" report. In this latter case the fuel reported is included under cost of materials for "Total Activity" only.

**5. Value of shipments of goods of own manufacture.** Net selling value of goods made by reporting establishment, or for its account, from its own materials. Excludes discounts, returns, allowances, sales taxes, excise taxes and duties, returnable containers, common or contract carriers' charges for outward transportation (but not own carriers' delivery expenses). Includes repair and custom revenue, transfers to reporting units of same firm, all exports, book value of own products shipped the first time on a rental basis. Includes consignment shipments to other countries, but domestic consignment shipments are included in inventory until sold.

**Value added.** Net output as measured by gross output less purchased commodity inputs used and contract work by others.

- (a) Value added, manufacturing activity: value of shipments of goods of own manufacture plus net change in inventory of goods in process and finished goods, less cost of materials and supplies used, fuel and electricity.
- (b) Value added, total activity: consists of (1) value added, manufacturing activity and (2) value added,

## NOTES EXPLICATIVES

Les notes succinctes ci-après s'appliquent uniquement aux points saillants ou à certaines extensions ou restrictions pouvant nécessiter une explication. On peut obtenir sur demande les concepts et définitions détaillés en commandant *Concepts et définitions du recensement des manufactures*, n<sup>o</sup> 31-528 au catalogue, que l'on peut obtenir à Ventes des publications, Statistique Canada, Ottawa, K1A 0T6.

**1. Établissement.** La plus petite unité d'exploitation, en général une usine ou une fabrique, en mesure de fournir certaines données sur ses entrées et sorties. Le nombre d'établissements pour 1975 a diminué à cause de l'exclusion des établissements qui ont été jugés de ne pas avoir d'employés. Les statistiques principales d'un établissement exerçant son activité dans plus d'une municipalité sont attribuées au prorata à des "quasi-établissements". Ces derniers sont considérés comme des établissements dans les totalisations.

**2. Période de déclaration.** Toute année financière terminée au plus tôt le 1<sup>er</sup> avril de l'année de référence ou avant le 31 mars de l'année suivante.

**3. Coût des matières et fournitures.** En général, il s'agit uniquement des produits utilisés et achetés au prix livré, les frais de transport et de manutention, les droits, etc., étant inclus. Comprend les transferts entre les unités d'une même société et les travaux exécutés par d'autres sous contrat. Au niveau de l'activité manufacturière, ce poste représente les produits achetés qui entrent dans la fabrication.

**4. Coût du combustible et de l'électricité.** Il s'agit uniquement du combustible et de l'électricité consommés et achetés au prix livré, les frais de transport et de manutention, les droits, etc., étant inclus. Les données relatives à l'activité non manufacturière figurent avec le secteur de la fabrication sauf lorsque l'unité auxiliaire utilise un questionnaire distinct de "Siège social". Dans ce dernier cas, le combustible rapporté est compris dans l'item "Coût des matières ..." sous la rubrique "Activité totale" seulement.

**5. Valeur des livraisons de produits de propre fabrication.** Valeur nette des ventes de produits fabriqués par l'établissement déclarant, ou pour son compte, à partir de matières lui appartenant, sans tenir compte des rabais, retours de marchandises, remises, taxes de ventes, taxes et droits d'accise, contenants restituables, frais de livraison payés à des transporteurs publics ou à forfait (mais non des frais de livraison de l'établissement même). Comprend les recettes au titre de réparations et de contrats, les transferts à d'autres unités déclarantes du même établissement, toutes les exportations, la valeur comptable des propres produits de l'établissement donnés en location la première fois. Les livraisons en consignment destinées à d'autres pays sont comprises, mais les livraisons en consignment au Canada figurent avec les stocks jusqu'à la vente.

**Valeur ajoutée.** Production nette, soit production brute moins consommation de produits achetés et travaux exécutés par d'autres sous contrat.

- a) Valeur ajoutée, activité manufacturière: valeur des livraisons de produits de propre fabrication, plus variation nette des stocks de produits en cours et de produits finis, moins coût des matières et des fournitures utilisées, du combustible et de l'électricité.
- b) Valeur ajoutée, activité totale: comprend (1) la valeur ajoutée par l'activité manufacturière et (2) la valeur ajoutée par

non-manufacturing activity. The latter is calculated by subtracting relevant commodity inputs from non-manufacturing revenue or outputs; these commodity inputs are net of the change in inventories of goods purchased for resale. Non-manufacturing revenues include depreciable fixed assets produced by own work force for own use, revenue from product rentals, etc., but exclude non-operating revenue such as real property rentals, dividends, interest.

**6. Employees, salaries and wages.** Salaries and wages are shown before deductions for income tax and employee portion of employee benefits and include payments for regular work, overtime and paid leave as well as bonuses, commissions paid to regular employees. Production and related workers in manufacturing activity include those employees at the establishment engaged in processing, assembling, storing, inspecting, handling, packing, maintenance, repair, janitorial and watchmen services and working foremen. (Outside pieceworkers' remuneration is included in cost of materials.) Respondents are asked for average month-end employment.

**7. Inventories.** Book value of owned inventory held in Canada, including goods in transit and on consignment.

**8. Small establishments.** For establishments below size limits varied to assure adequate coverage of industry totals by large-establishment returns, a simplified "short form" questionnaire is used or, if applicable a regular financial statement is accepted. This involves certain departures, beginning 1970, from definitions used for large establishments. Number of employees is imputed from salaries and wages, with imputation also of male and female numbers and person-hours. All data are classified to manufacturing activity. Value added differs from that of large establishments in that purchased services are included with the cost of materials and supplies used for short forms, but excluded for large establishments, resulting in exclusion of purchased services from value added for short forms but its inclusion in value added of large establishments. Totals for size groups or geographical areas dominated by small establishments may have limited comparability with totals for previous years or other geographical areas.

**9. Head offices, sales offices and ancillary units.** Included in the individual industry of the company's largest activity. (The allocation of some such units to the major industry group level was discontinued with the 1970 data.)

l'activité non manufacturière. Cette dernière s'obtient en soustrayant les entrées de marchandises des recettes ou des sorties provenant de l'activité non manufacturière, après avoir soustrait de ces entrées la variation des stocks de produits achetés pour la revente. Les recettes provenant de l'activité non manufacturière comprennent les immobilisations amortissables produites par la main-d'oeuvre de l'établissement pour son usage propre, les recettes de location de produits, etc., mais non les recettes hors exploitation, comme les loyers d'immeubles, les dividendes, les intérêts.

**6. Salariés, traitements et salaires.** Les traitements et les salaires sont pris en compte avant les retenues au titre de l'impôt sur le revenu et les cotisations aux fins des avantages sociaux versées par l'employé, et comprennent la rémunération des heures normales et supplémentaires et des congés payés, ainsi que les primes et commissions accordées aux salariés réguliers. Les travailleurs de la production et assimilés classés dans l'activité manufacturière comprennent les salariés de l'établissement affectés à la transformation, au montage, à l'entreposage, au contrôle, à la manutention, à l'emballage, à l'entretien et à la réparation, ainsi que les concierges, gardiens et contremaîtres de l'établissement. (La rémunération des ouvriers à la pièce de l'extérieur est comprise dans le coût des matières.) On demande aux enquêtés d'indiquer le nombre moyen de leurs salariés à la fin du mois.

**7. Stocks.** Valeur comptable des stocks détenus en toute propriété au Canada, y compris les marchandises en transit ou en consignation.

**8. Petits établissements.** Pour les établissements en deçà des limites de taille, modifiées afin de prendre en compte de façon aussi complète que possible des chiffres déclarés par les grands établissements, on utilise une "formule abrégée" ou, le cas échéant, un état financier ordinaire. On a dû pour cela s'écarter, à partir de 1970, des définitions utilisées pour les grands établissements. On impute le nombre de salariés à partir des traitements et des salaires, ainsi que le nombre d'hommes et de femmes et le nombre d'heures-personnes. Toutes les données sont classées à l'activité manufacturière. La valeur ajoutée diffère de celle des grands établissements en ce que les services achetés sont compris dans le coût des matières et des fournitures sur les formules abrégées mais non sur les formules destinées aux grands établissements; par conséquent, les services achetés sont exclus de la valeur ajoutée sur les formules abrégées mais sont inclus dans le cas des grands établissements. Les totaux des groupes de taille ou des régions géographiques où dominent les petits établissements peuvent ne présenter que peu de points de comparaison avec les chiffres des années précédentes ou ceux d'autres régions géographiques.

**9. Sièges sociaux, bureaux de vente et unités auxiliaires.** Classés avec l'industrie qui représente l'activité principale de la société. (Le classement de certaines de ces unités au niveau des groupes a cessé à partir de 1970.)
